

SAM MAVERICK BREWING COMPANY

Beers made in house.

1. Mission City

Blonde Ale / 4.8% ABV / 22 IBU

A light and refreshing lawnmower beer made with Texas grown malt. San Antonio is known as the Mission City and the Mission City Blonde Ale is perfect for quenching your thirst on those hot Texas summer days.

2. Lockwood English Porter

Porter - English / 5.2% ABV / 21 IBU

A classic roasty English Porter, this beer is dark and complex without being heavy or filling. The malt character pushes this beer forward accentuating the chocolate, coffee, and roast aspects. This beer was fermented with a traditional English strain of yeast and is deceptively light.

3. Sam Maverick Roggenbier

Roggenbier / 6.5% ABV / 14 IBU

Please enjoy this traditional Roggenbier. Made with a whole lot of malted rye and a wonderful ester forward German yeast, this beer is like toasty banana bread in a glass. A perfect fall sipper.

4. English Mild

English Mild Ale / 5% ABV / 22 IBU

Our take on an old English classic. Sam Maverick English Mild is a well balanced ale with nice malt character and the slightest hop bitterness. Fermented with a combo of English ale yeasts, English Mild is an easy drinker fit for any occasion.

5. Sam Maverick Belgian Strong Ale

Belgian Strong Golden Ale / 11.3% ABV / 27 IBU

This beer is made in the tradition of strong Belgian Abbey ales. Made with a distinctive Belgian strain of yeast and a healthy dose of dark, molasses-rich brown sugar this beer is a spicy and warming.

6. Sam Maverick Hazy IPA

IPA - New England / 8.5% ABV / 98 IBU

At Maverick Whiskey we don't do anything in half-measures. The same holds true for our take on the ubiquitous Hazy New England IPA. Columbus and Simcoe hops create a spicy earthy backbone for the true stars of the show, and irresponsible amount of Galaxy, Citra, and Amarillo hops added late in the brewing process. In your face but balanced, please enjoy this larger-than-life beer!

7. Sam Maverick Wild Rice Pilsner

Pilsner - Other / 5.6% ABV / 33 IBU

A lot of breweries think of rice as a subpar ingredient to add to beer, and in some cases it is. Just filler no killer. Not in this case. We added a healthy dose of Minnesota grown wild rice to a very nice traditional Czech style pils. The result is a nuttiness and depth that the style doesn't otherwise demonstrate. Enjoy this unique take on a classic style.

8. Distiller's Pale Ale

Pale Ale - American / 4.8% ABV / 29 IBU

(S)ingle (M)alt and (S)ingle (H)op beer (SMaSH). This beer is made with only one kind of malt and one kind of hop. The malt is the exact same barley malt we use to make the spirits here at Maverick, so you can consider this beer as the Whiskey's younger sibling. The fun of making a SMaSH beer is playing with hops as well. Every time we make a new batch we will rotate the hops to showcase some of their unique flavors.

All Beers available "to-go" in 32oz Crowlers. Ask your server for more info!
